

Project Update

Eva Tilley Memorial Home

PERFECT DELIVERY

Despite the short week, works are still progressing well on Stage 2 of the Eva Tilley Memorial Refurbishment.

Works completed

- Installation of new wall framing for Sybil's Lounge and the new office
- Painting to bedroom door frames and doors
- Plumbing Rough in for the relocated toilet
- Fire, Mechanical and Electrical Services Rough In

Upcoming tasks:

- Completion of remaining plastering works
- Installation of new doors and windows
- Floor preparation for new vinyl and carpet flooring
- Installation of Sybil's lounge joinery
- Installation of curtains

Please Note: Due to the number of deliveries likely to occur over the next couple of weeks, we would recommend that visitors and staff to Eva Tilley park their vehicles at least 5m away from the rear driveway entrance. This will enable truck to turn more easily into the driveway and minimise the risk of vehicle damage. Thanks in advance for your cooperation with regards to this.

If you have any questions or want some more information, please feel free to contact any member of the project team.
